THE DIWALI CUP · BY CURRY UP NOW

Run of Show

Saturday, November 7 | Park Padel South San Francisco | Courts 1 to 6

The operating guide for the people running the day: Akash as event lead, and Aanvi and Araya at the score desk. Captains have their own brief; everything here matches it.

Sexy Fries
Captain: Maria Castillo

Punjabi 69ers
Captain: Lydie Abood

Deconstructed Samosas
Captain: Derek Lo

Naughty Naans
Captain: Nicolas Horde

48	4	6	60	5
players	squads of 12, three lines of 4	courts	sets in five rounds	sets for every player

01 Who does what

EVENT LEAD · DISPUTES

Akash

Loads the squads onto the scoreboard before the day (Cleon as backup). Runs the 8:30 check-in and the captains' meeting. Handles disputes with Rich, decides forfeits and whether to end without finals, and reads out the awards.

SCORE DESK

Aanvi and Araya

Enter every score on the scoring laptop and keep a paper copy. For Rounds 4 and 5: hand captains their matchups, enter their lineups, release each round once all four are in. Enter golden-point deciders.

DISPUTES

Rich

Handles disputes with Akash. A disputed point is replayed first; Akash or Rich settles anything a replay doesn't.

SQUADS

Captains

Maria, Lydie, Derek and Nicolas. Their twelve on court on time, in Diwali Cup shirts; winners walk each score to the desk; Round 4 and 5 matchups and lineups through the desk. Each names a vice-captain.

[confirm: who handles disputes while Akash or Rich is on court. The rosters include an Akash Kapoor (Punjabi 69ers, Line 1) and a Rich Roth (Naughty Naans, Line 2); if those are the same people, both will be playing for part of the day.]

02 The scoreboard addresses

One live board and one test board. Each address is the board's address plus a short ending.

SCREEN	ADDRESS	USED FOR
TV	`cleonrice-cpu.github.io/cup-live-scores/diwali/#tv`	The club TV, full screen, all day
Players	`cleonrice-cpu.github.io/cup-live-scores/diwali/#you`	Phones, from the QR on the door poster, court sheets or TV
Court sheets	`cleonrice-cpu.github.io/cup-live-scores/diwali/#posters`	Printing court sheets, door poster, squad sheets
Scoring	`cleonrice-cpu.github.io/cup-live-scores/diwali/#control`	Score desk laptop. Opens straight away, no PIN
Test board	`cleonrice-cpu.github.io/cup-live-scores/diwali-test/#control`	Practice. Never touches the real Cup; orange "Test scoreboard" banner

03 Before the day

1 Load the squads (Akash, Cleon as backup)

Diwali Cup Kit → Pairings → "Copy scoreboard setup". On the live Scoring page, **Load squads** tab: paste, then **Check and load**. It checks every line and every player's set count, then says "Loaded. Courts, phones and the TV now show these squads." If a captain changes their kit lineups later, copy and load again; entered scores stay. **[confirm: the deadline for the final load (the earlier plan said Thursday, November 5)]**

2 Print from the court sheets page

After the final load, open `#posters` and press **Print court sheets**: six court sheets (Rounds 1 to 3 in playing order with a score column, then a wave 1 and a wave 2 row for each of Rounds 4 and 5, "matchup from the score desk"), the door check-in poster, and one who-plays-when sheet per squad. Print the court sheets twice: one set for the courts, one for the desk's paper record. Squad sheets go to captains at 8:30.

3 Practise on the test board

Aanvi, Araya and Akash each run the day: enter scores, record a forfeit, fix a wrong score, enter Round 4 lineups and release the round, settle a level tie with the decider card. **Reset test data** on its Load squads tab starts again.

4 Clear practice scores from the live board

Load squads tab: type `CLEAR` under "After a practice run", then **Clear all scores**. Every score goes and Rounds 4 and 5 seal again; squads stay loaded. Before Saturday only, never once play has started.

04 Setting up at the venue, 8:15

THE TV

Chrome, the **#tv** address, F11 for full screen

Plugged in, sleep turned off

Before the first score: check-in count ("12 of 48 checked in") and "Scan and tap your name to check in"

Blank or frozen: wait 30 seconds, then F5. Nothing is lost

Cut off or tiny: Ctrl+0 (Cmd+0 on a Mac), then F5

THE SCORE DESK

Laptop and charger, plugged in. Club wifi **[confirm: network name and password]**, phone hotspot as backup

Open **#control**

The dot at top right reads **Live**

The desk set of court sheets, and pens

A second device can sign in too without overwriting

DOOR AND COURTS

Door poster with the QR at the entrance. Players scan and tap their name: that checks them in and opens their matches

One court sheet at each of Courts 1 to 6

Shirts, breakfast and ball bags out before 8:30

Squad sheets ready for the captains' meeting

05 The day

8:15	8:30	8:30	9:00	12–2	After R3	After R4	3:00
Set up	**Report**	**Meeting**	**First ball**	**Lunch**	**Round 4**	**Round 5**	**Close out**
TV, desk, door poster; Akash and helpers	Shirts on, photos, breakfast	Captains, then squads; Akash	Round 1, wave 1, all six courts	No break: eat between sets	Seeding, via the score desk	Finals, then awards	Pack down; Akash, score desk

No fixed start times after 9:00: Rounds 1 to 3 run back to back, and Rounds 4 and 5 start as soon as the score desk releases them. **[confirm: a target time for the finals and the awards]**

8:30 TO 9:00

Everyone arrives at 8:30 wearing their Diwali Cup shirt, so shirts are on before the team photo. Then breakfast, the captains' meeting and each captain's squad brief. First ball at 9:00 doesn't move. Players check in at the door QR; the **Check-in** tab shows who's missing, and captains chase their own.

AT THE CAPTAINS' MEETING, AKASH

Hands each captain their squad sheet and confirms their vice-captain

Says who isn't checked in yet, and which reserves are playing, if any

Five sets for every player, one per round; four or six disqualifies the squad

Winners walk every score to the desk; Round 4 and 5 matchups and lineups go through the desk

A disputed point is replayed first; disputes go to Akash or Rich

05 The day, continued

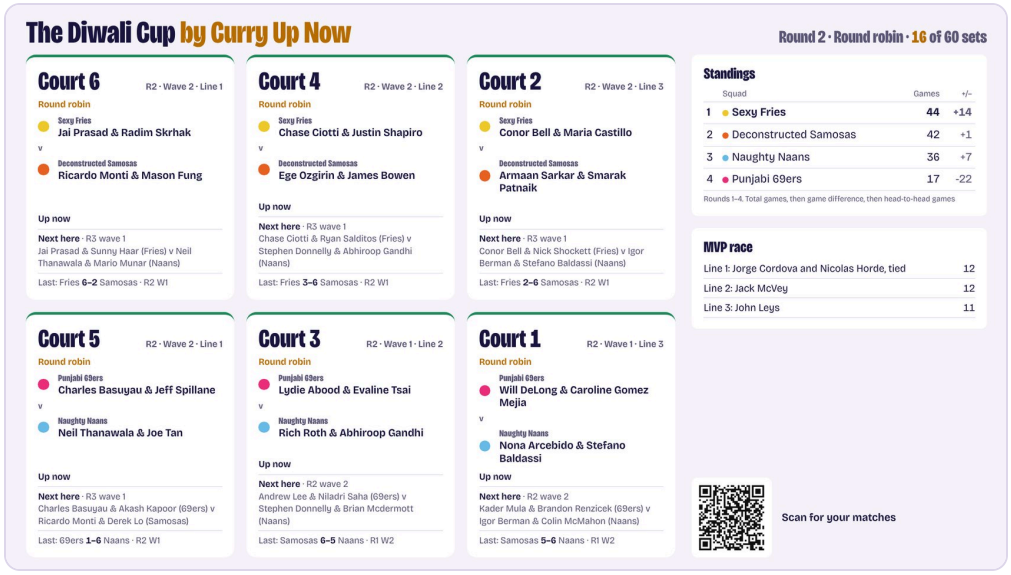

ROUND	STAGE	TIE A · COURTS 6, 4, 2	TIE B · COURTS 5, 3, 1	SETS
Round 1	Round robin	Fries v 69ers	Samosas v Naans	12
Round 2	Round robin	Fries v Samosas	69ers v Naans	12
Round 3	Round robin	Fries v Naans	69ers v Samosas	12
Round 4	Seeding	1st v 4th after Round 3	2nd v 3rd	12
Round 5	Finals	Round 4 winners: the Cup	Round 4 losers: third	12

Every round is two waves. Courts keep their line all day: **6 and 5** Line 1, **4 and 3** Line 2, **2 and 1** Line 3. Each line sends one pair out in wave 1 and the other in wave 2, so all 48 play one set per round. Rounds 1 to 3 use the pairs from the kit; for Rounds 4 and 5 captains hand their pairs to the desk. The first squad named in a tie is "home", listed first on the scoring screen.

Each court plays its list in order, wave 1 then wave 2. A set shows as **Up now** when the court is free and all four players are done with earlier sets; otherwise "Waiting for [name], still playing on court [n]". Rounds 4 and 5 also wait for every score of the round before, and for the desk to release them.

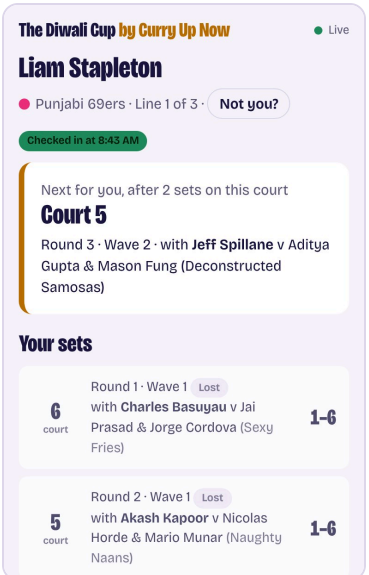

Every set: first to 6 games · **Golden point at deuce** · **5–5: four-serve shootout, recorded 6–5** · **Standings: total games, then game difference, then head-to-head games**

The TV

Mid-morning. Each court shows the set that's up, the next one and the last result; standings and each line's MVP race on the right. Screens here have a light background for printing; the real TV is dark.

A player's phone

Their next court, partner, opponents and every set. Rounds 4 and 5 say "From the desk" until released.

06 The score desk

SCORING PAGE
#control

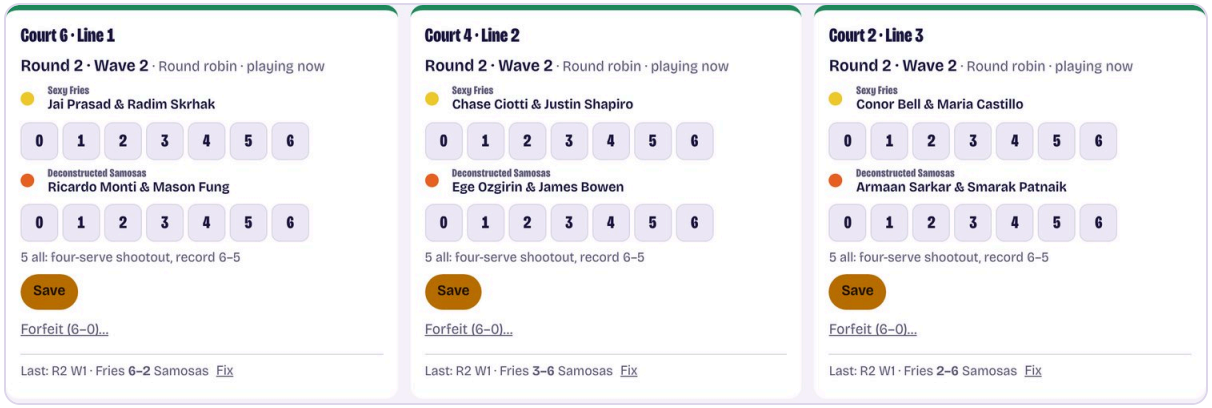

Open it on the score desk laptop; no PIN needed. Anyone with this link can enter scores, so keep it to the desk.

The tabs

Courts	A card per court with the set that's up: enter scores, record a forfeit, fix the last score. Round 4 and 5 matchups, decider cards and "End without finals" appear at the top.
Lineups	Each squad's pairs by round; line switches in Rounds 1 to 3. For Rounds 4 and 5: the wave 1 and wave 2 pair per line, "Lineup in" ticks and the Release button.
All matches	All 60 sets by round and wave, with Fix and Clear on every scored set.
Check-in	Who's here; "Missing only" filters. Tap a name to mark in, or out (tap twice). **Reserve** marks a reserve playing under that name.
Load squads	Loading the kit setup, clearing practice scores. Not needed on the day.

Entering a score

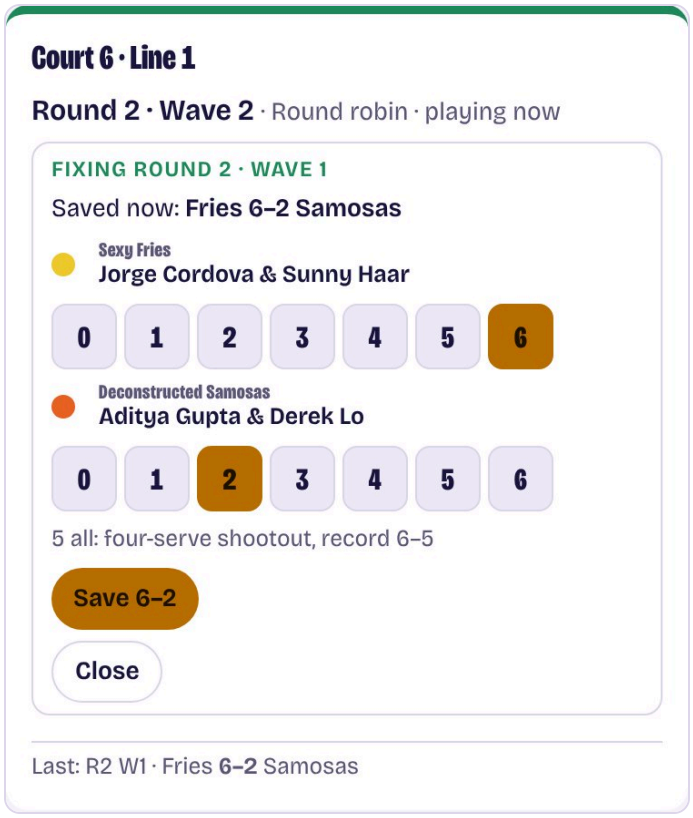

The Courts tab in Round 2: each card shows round and wave, both pairs, and the court's last result.

1. A player from the winning pair brings the score. Find their court's card.
2. Tap the home squad's games (top row), the away squad's (bottom row), then **Save**; the button shows the score first. Only 6–0 to 6–5 is accepted: at 5 all the court plays a four-serve shootout, recorded 6–5.
3. Write it on the desk's court sheet. The card moves to the court's next set; TV and phones follow in seconds.

Status dot: ● **Live** all sent, ● **Sending** a change going up, ● **Offline** no signal. Offline scores wait on the laptop and send themselves.

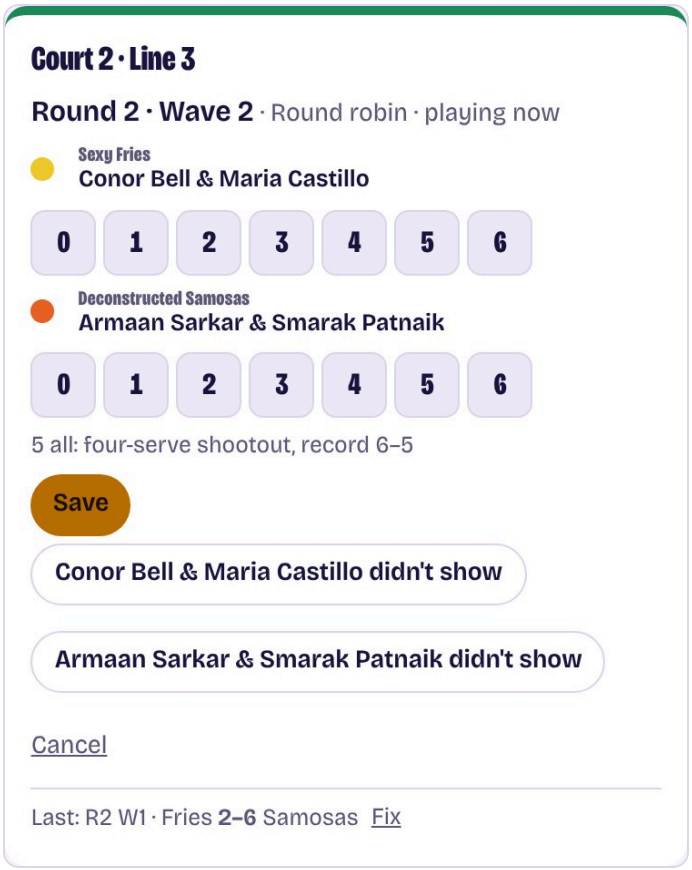

06 The score desk, continued

Fixing a wrong score

Tap **Fix** on the card's "Last" line: it opens with the saved score selected; pick the right one and save. Older sets: **Fix** on All matches. **Clear** there removes a score on the wrong set (tap twice).

Recording a forfeit

Tap **Forfeit (6–0)…**, tap the pair that didn't show, tap again to confirm. The other pair gets the set 6–0. Only when Akash has called it.

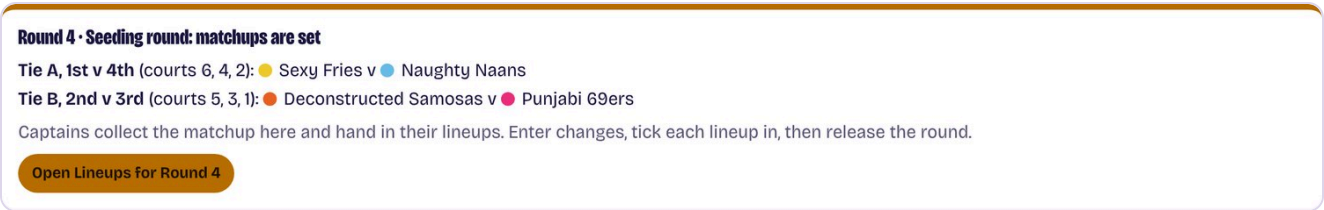

Line switches, Rounds 1 to 3	Pairs are loaded from the kit and printed on the sheets. A captain may switch up to two lines on the day. **Lineups** tab: choose the round, pick the new split from that line's list. It saves at once and marks the line "changed". More than two in a round shows a warning: tell the captain and Akash. A line can't change once one of its sets in that round has a score.
Check-in and reserves	A court card shows "Not checked in" with the name in red when a player in the set that's up isn't here. If a reserve plays for them, tap **Reserve** by that name on the Check-in tab: the reserve plays under it, the squad keeps the games, the name leaves the MVP race (needs a signal).
Five sets each	One set per round, wave 1 or wave 2; four or six disqualifies the squad. The board keeps this right as long as every change goes through Lineups: it only offers splits of a line's own four into a wave 1 and a wave 2 pair.

07 Round 4, the seeding round

1st v 4th on Courts 6, 4 and 2; 2nd v 3rd on Courts 5, 3 and 1, from the standings after Round 3. Lineups are private: nothing about Round 4 shows on the TV or phones until the desk releases it, and the desk never shares one captain's lineup with another.

1 Round 3 is complete

When the last Round 3 score is saved, a card at the top of Courts shows both matchups. Court cards say "Round 4 is sealed: open Lineups to release it"; the TV says "lineups at the score desk".

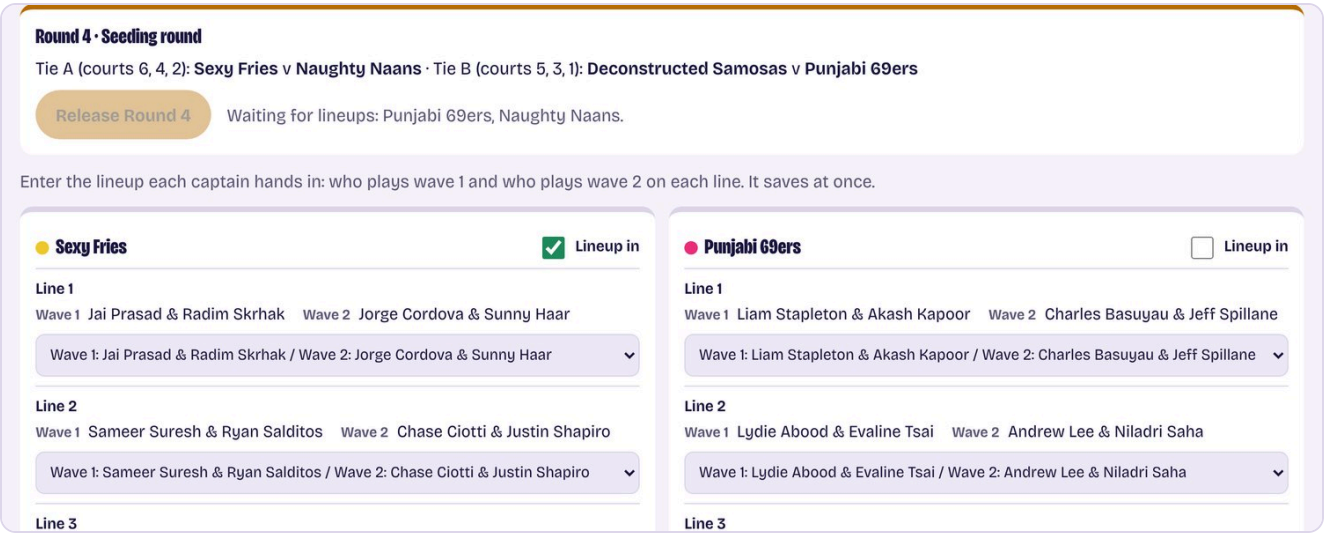

2 Captains collect the matchup and hand in their lineup

Tell each captain their opponent and courts. For each line they say which pair plays wave 1 and which wave 2. Everyone plays.

3 Enter the lineup and tick it in

Open Lineups for Round 4. Each line starts on the kit default; if the captain's differs, pick it from the line's list ("Wave 1: [pair] / Wave 2: [pair]", saves at once). Then tick **Lineup in** on that squad's card.

Two in, two to come: Release stays off and names the squads still missing.

4 Release the round

All four ticked: **Release Round 4**, then again to confirm ("Tap again: show Round 4 on the TV and phones"). "Undo release" seals it again if it went out by mistake.

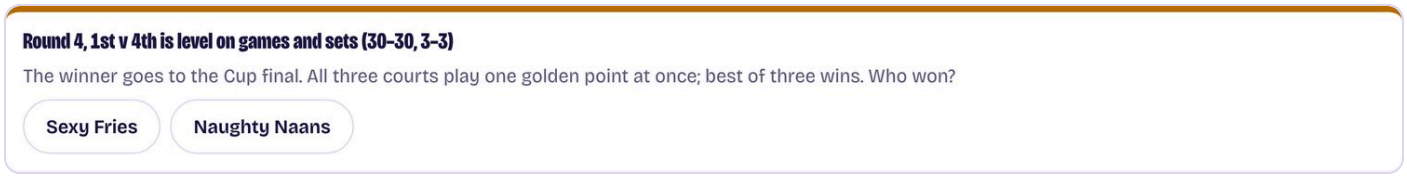

5 Enter the twelve scores as usual

Wave 1 then wave 2 on each court. The first saved score of each tie fixes its squads, so correcting an earlier score afterwards won't move the tie.

07 Deciders, Round 5 and the result

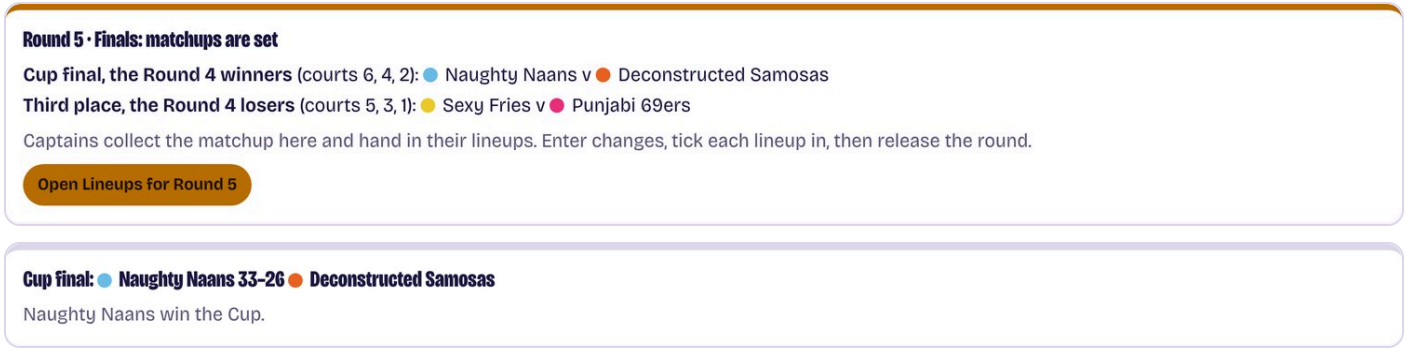

A level tie in Round 4 or 5

Each tie is won on total games across its six sets (three lines, two waves). Level on games: the squad that won more of the six sets wins; the board does this itself. Level on sets too (3–3): a card appears at the top of Courts. Tell Akash and both captains; all three courts of the tie play one golden point at once, best of three. Tap the winning squad, then confirm. A Round 4 decider must be in before Round 5 matchups can be set.

Round 5, the finals

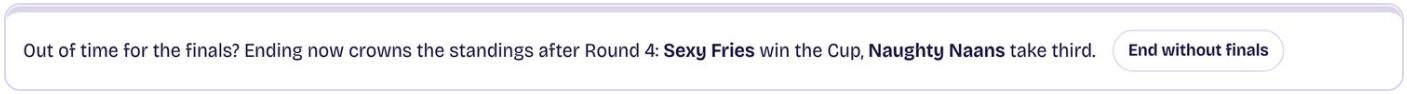

Once Round 4 is scored and decided, the top card shows the Cup final (Round 4 winners, Courts 6, 4, 2) and the third-place tie (losers, Courts 5, 3, 1). Matchups and lineups exactly as Round 4: a wave 1 and a wave 2 pair per line, everyone plays. **Lineups** → Round 5, enter each, tick **Lineup in** for all four, **Release Round 5** and tap again. Private until released.

The Round 5 matchups, and the Cup final card once its six sets are in. The third-place tie gets its own card.

Ending without finals

If time runs out, a strip on Courts offers **End without finals** once Round 4 is scored and before any Round 5 score. Tap twice: the day ends on the standings after Round 4 (1st wins the Cup, 3rd takes third) and every player finishes on four sets. "Undo: play the finals" reverses it. Akash's call. **[confirm: the latest time Round 5 can start before the day ends without finals]**

Placings

Cup final winner is champion, loser second; third-place winner third, loser fourth. When both are decided the TV's top line shows "Champions" and "Third", and standings become "Final placings" (next page).

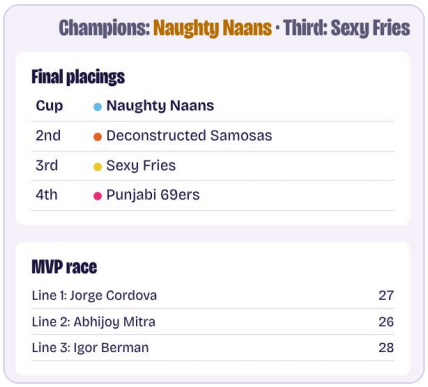

08 When something goes wrong

Late player	Their captain chases; Check-in shows who's missing, other courts carry on. If they don't come, Akash calls a forfeit or a reserve plays under their name. [confirm: how long a court waits before a forfeit is called (the old plan used 10 minutes)]
Forfeit	Akash calls it; the desk records it with **Forfeit (6–0)...** on the court card (page 6).
Wrong score	**Fix** on the card's "Last" line or on All matches; **Clear** if on the wrong set. Correct the desk's sheet too.
Wifi drops	Keep entering. The dot reads "Offline"; scores, lineup ticks and releases wait on the laptop and send when the signal's back, even after a reload. TV and phones wait too. Long outage: phone hotspot. Check-ins and reserves need a signal.
Laptop dies	Open Scoring on another laptop or phone. Unsent scores are lost: check recent sets against the desk's sheets and re-enter.
TV frozen	Wait 30 seconds, then F5. Nothing is lost.
Dispute	Replay the point; anything a replay doesn't settle goes to Akash or Rich. The desk doesn't rule; it records the score once there is one.

09 Awards and close-out

AKASH READS THE WINNERS OFF THE TV, IN THIS ORDER

1. **Third place**
   Winner of the Round 5 third-place tie. [confirm: the third-place prize, if any]
2. **The Diwali Cup**
   Winner of the Round 5 Cup final: free Curry Up Now for a year.
3. **MVP for each line**
   Most games won all day; $400 in DoorDash gift cards each; not a name a reserve played under. Level players: the TV splits on sets won, then game difference ("tied" only if level on all three). [confirm: whether players level on games share the prize, as the kit's awards notes say, or the TV's order stands]

The TV at the end: Champions and Third, final placings, each line's MVP.

CLOSE-OUT, 3:00

- [ ] Every Round 5 score on the board
- [ ] Photo of the TV: Champions, placings, MVPs
- [ ] Awards given: third, the Cup, three MVPs
- [ ] Court sheets collected from all six courts
- [ ] Laptop, chargers, ball bags packed
- [ ] Results photo sent to Cleon

Phone numbers [confirm: phone numbers for Akash, Rich, Aanvi, Araya, Cleon and the club's contact on the day]
